Have you ever wondered what makes a good company great? It’s the people. Committed, productive employees are key to organizational success and a healthy bottom line. The challenge, then, is retaining and developing satisfied, committed employees. The solution is the Work Expectations Profile. Why? This engaging, self-directed learning instrument helps your employees understand and manage their work expectations. Research has shown that people who have clearly defined, well-communicated expectations have better attitudes and enjoy greater job satisfaction than people whose expectations go unspoken or unrealized. And companies that employ satisfied, successful people reap the rewards of increased productivity and reduced turnover.
